Grape variety Pinot Noir
Serving temperature 14 to 16°C
Ageing potential 2 to 6 years

The excellence and the great potential of the Touraine and Haut-Poitou terroirs are not a surprise, yet it is always pleasant to discover new gems! The Pinot Noir shines differently when grown and wrought in the Val de Loire. It becomes a pleasure wine, a luxury wine affordable for daily treats!

WINEMAKING & AGEING

We leaf-pluck the Eastern side of each row, then we regularly do a 'green harvest' to help the maturity of the grapes and control production. Only the best grapes are harvested. The fermentation starts after a couple weeks of 'cold maceration' in tanks. The juices are gently punched-down everyday, at winemaker's discretion, during the fermentation. The malolactic fermentation takes place in the spring following the harvest. A very soft filtration is done before wine bottling.

FOOD PAIRING

Our Pinot Noir MMM is the ideal companion for your gourmet meals. It is a perfect match with 'duck breast and apricots' or a calf meat stew with vegetables.

TASTING NOTES

The color is a brilliant ruby. The expressive nose reveals aromas of lily flower, violet, blackcurrant, blueberry, and black pepper. On the palate, the balance is evident, with a fruity freshness blending cherry and kirsch, supported by delicate tannins. The finish, subtly tannic, charms with its elegance.

VINTAGE 2023

With the MMM, we aim to offer a Pinot Noir that is truly Loire-style, true to the region and its terroir. It expresses aromas of tart red berries, followed by a fresh, fruity finish. A wine made for immediate pleasure.
